C. P. Resumes Work On Acme Branch

Assistant Engineer on
grounds and teams now
working on grade-steel
laying will start in a few
days. Line to connect to
Monarch spur and in to
Drumheller soon.

Quite a stir was caused in Drum-
heller this week when it was
learned that the C. P. R. had actu-
ally started work on the Acme-
Drumheller line with the intention
of finishing the work as fast as
possible.

A. E. Sharp, assistant engineer,
with headquarters at Winnipeg,
has been in Drumheller for several
days and already has 12 teams at
work repairing the grade between
Kirkpatrick and Nacmire where
it was damaged by the rains and
the river. Mr Sharp stated that
arrangements were made only a
few weeks ago to enter Drumheller
over the Monarch spur, and now
men and teams are being engaged
and the work pushed as fast as
possible. There are several re-
pairs to make to the grade which
will take about ten days and then
the track laying machine will
follow and lay the remaining two
miles to connect the present end of
steel with the spur at the Monarch
Mine.

R. R. Man Says It Kept Him On The Job--Was Nearly Down And Out

"It's all due to Tanlac that I am able to be on the job today, for I was just about down and out when I began taking it," said Harold Blanchard, a trainman on the Canadian National Railway, residing at 330 Donald St., Winnipeg, Man.

"On returning from France, after three years service over there, I was so run down and weak I could hardly work. My appetite was gone and my stomach in such a bad condition that what little I did eat seemed to do me harm instead of good. After eating I would bloat terribly and my heart would beat like a hammer against my chest. This palpitation was so bad at times I began to think I had something serious the matter

with my heart. My kidneys had also bothered me for several years and there was a severe pain in the small of my back.

"My sleep at night did me little good, for I would wake up at all hours and then get up feeling as tired as if I hadn't gone to bed at all. In fact, I felt miserable all the time. One day I happened to hear a man telling how much Tanlac had helped him, so I began taking it and the results have been nothing less than remarkable. To put it all in a nutshell, I am now as strong and well as I ever was in my life and I consider Tanlac well worth recommending to everybody."

Tanlac is sold by leading druggists everywhere.

Canada's Needs

No. 1—Population

In this, the first of a series of articles dealing with some of Canada's outstanding needs as it enters the new year, first attention is given to the subject of population, because, after all, the provision of many other needs and the solution of most national problems hinges upon the question of people.

Some people may challenge the statement that population is Canada's most pressing need. Pointing out that there is much unemployment at the present time, some may argue that we already have more people than we can adequately provide for, and that all efforts at immigration should cease. Others may contend that more important than population is the righting of certain social wrongs and the raising of the moral and religious life of the nation.

There is, of course, room for argument, but the writer would submit that before any country can amount to anything, and before there can be increased employment and a high standard in life, there must be an adequate population to make these things possible. Churches, banks, factories, railways, and so forth, do not make a country. It is people who make a nation. Without population any land will remain a wilderness, but with people, and only with, by and through people can a barren land be made anything else but barren.

Along with the New Year, Canada gets a new national administration. Among the big problems which will confront the new Prime Minister, his cabinet and the new Parliament, not one exceeds in magnitude and importance the question of largely augmenting the population of the Dominion by the introduction of the right class of immigrants.

Fortunately, the whole country is beginning to realize this fact, and east and west a growing public demand is being voiced for the adoption of a wise but vigorous and persistent immigration policy. The immigration portfolio in the new Government calls for the biggest, brainiest, most aggressive man that Mackenzie King can call to his cabinet. The task confronting such a minister is a hard one, but the man who tackles it in earnest and keeps at it will not only make a lasting name for himself, but will confer benefits on Canada which cannot be reckoned in dollars and cents alone.

The new Government is pledged to adopt policies and enact laws designed to bring about a return of prosperity to this Dominion, to keep our factories busy and, generally, to provide ample employment for all citizens. The basic stone in the construction of the national edifice of prosperity is population—people settled on the vacant lands of Canada, people to work in the development of our vast wealth of raw natural resources, people who will create traffic for our national railways, people who will help to divide the load of taxation and thus make it easier for all.

There are hundreds of thousands of prospective emigrants in the countries of Europe. If number alone was all that counted the task of the new Minister of Immigration would be easy. But while Canada wants quantity, and can absorb tens of thousands of new settlers, they must be of the right type, men and women and children who will prove an asset and not a liability to Canada. Unfits, whether physically, mentally or morally, are not wanted and must be debarred, but the clean, sound, able-bodied should be picked out and encouraged to come, and mere lack of money should not be imposed as a bar to their admittance.

Canada is a land of opportunity. While the days of free homestead lands, which attracted a great influx of settlers in the first decade of the century, are no longer available, there are tens of millions of vacant acres of good agricultural land awaiting settlement. It will be the task of statesmanship and true nation-building to work out a sound policy whereby these lands are made available to settlers on reasonable terms and some assistance given to such settlers to enable them to establish homes with an assurance of success.

The first step towards evolving a practical and successful settlement policy is to discover why it is that so many thousands of people who have come to Canada in the past with the full determination to remain here and make permanent homes for themselves and their children, have, after the lapse of a few years, left the country. There is a weakness, a fault, somewhere. It should be clearly located and steps taken without loss of time to remedy the defect, whatever it may be. That done, then vigorous action should follow to encourage the hardworking, fit people of Europe to come to Canada, establish homes here, assist in the development of our stores of natural wealth, and become good citizens and active participants in the building up of this Dominion.

W. N. U. 1461

General Smuts' Advice

Nations Will Prosper If People "Keep Their Heads"

As General Smuts said, our present troubles will leave us stronger later on. It is better to fight through them now, even at some sacrifice, than to put them off and have to deal with bigger ones in the future. Germany is adopting a seemingly easier course. She is producing a temporary and illusory activity by depreciating her currency and trying to live upon paper money. Every Imperial expert is convinced that she is merely postponing the evil day, and that a gigantic crash is inevitable. The mirage of inflation never lasts long. Suddenly it vanishes and reveals the desert. "Keep your heads," says General Smuts to bankers and traders and the people generally. It is the only sound and sane thing to do. We cannot change world conditions and make all the nations prosperous in a moment. But we can at least refrain from making our own position worse by needless interruptions of activity and panicky measures.—The Johannesburg Times.

WHY BEAUTY FADES

A Condition Due Entirely to Poor, Watery Blood

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale, haggard and angular. She not only tires out easily but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no other medicine can equal Dr. Williams' Pink Pills. If given a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Approximately 500,000 pies are eaten daily in ten of the largest cities in the United States.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

"What are you doin' of, James?"
"Sharpenin' a bit of pencil."
"You'll 'ave the union after you me lad. That's a carpenter's job."

Mother! Clean Child's Bowels With California Fig Syrup

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Cascarets Tonight For Liver, Bowels, If Bilious, Headachy

Get a 10-cent box now. You're headachy! You have a bad taste in your mouth, your eyes burn, your skin is yellow, your lips parched. No wonder you feel mean. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are gone by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets too because they never gripe or sicken.

British Columbia Developments

Canadian National Railway Official Speaks Optimistically of Outlook

Osborne Scott, general passenger agent, Canadian National Railways, Vancouver, who was in Winnipeg recently attending a conference of officials of western lines with C. A. Hayes, vice-president in charge of traffic, and H. H. Melanson, passenger traffic manager, Toronto, writes with respect to future business activities.

Speaking of progressive developments in his territory, Mr. Scott was in an entirely optimistic mood. He spoke of steadily increasing land settlement in the valleys and on the plateaux of Central British Columbia traversed by the Grand Trunk Pacific and also in the valleys of the Thompson and lower Fraser Rivers. Considerable land is already under cultivation in the more recently settled sections and production has reached a shipping stage. The fruit output in the southern part of the province is, of course, the outstanding feature of land production. By the introduction of improved varieties and exercising constant vigilance in combating pests, the old prejudices harbored against British Columbia apples have been dissipated and now our apples are being marketed successfully in Great Britain, United States, Japan, New Zealand and Australia, and also in Eastern Canada, which is world famous for the quality of the staple fruit.

The export of pure bred dairy cattle from British Columbia to Antipede countries and to Japan is another interesting feature of our agricultural progress during the past two years. Fruit shipments were found so satisfactory that large repeat orders are now coming. The dairying industry is also expanding fast, the long season of outdoor grazing being a big advantage.

Lumber is the chief export of the province today, our splendid timber products finding ready markets in all quarters of the globe, but other products, both raw and manufactured, are claiming attention of overseas consumers to such an extent that a company, known as the Canadian Producers Corporation Limited, has been organized with an authorized capital of \$1,000,000 for the purpose of purchasing and exporting the output of British Columbia forests fields, fisheries, factories and mines to all parts of the world. This company has trade connections in both the Orient and Occident. In connection with growing export business, Canadians should feel special pride in knowing that the ships of their Merchant Marine are playing a very important part in carrying out goods to the world's markets. The flag of our merchant fleet is now found on the seven seas of the globe, and wherever it goes Canadian trade goes too. With respect to the lumber business, Mr. Scott states that exports this year to August 31st, amounted to 101,604,256 feet.

As all year round resort of tourists, holiday makers and seekers after health, British Columbia is growing in favor, Mr. Scott declares, and community and other organizations are providing facilities for the accommodation and entertainment of the many visitors. Vancouver is providing a new attraction for that city in the way of an immense pavilion for winter salt water bathing and water sports. It will be located on English Bay and the water will be heated to the proper temperature. Visitors from the prairie provinces, whose numbers increase each succeeding season, have their own social organizations and have enjoyable gatherings and recreative amusements.

The minister who made the following announcement seems to have been prepared for untoward results from his preaching.

"There are some flowers here," he said, "for those who are sick at the close of this service."

Cheapest of all Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

A tank heater that can burn wood, rubbish or soft coal is a boon to farmers, see offer made by the Metal Shingle and Siding Co., Ltd., Winnipeg. Their ad appearing elsewhere in this issue.

Minard's Liniment For Colds, Etc.

WEAK HEART NERVES BADLY SHATTERED

Many a woman who should be strong and healthy, full of life and energy is bound by the shackles of ill-health.

Some disease or constitutional disturbance has left its mark in the form of a weak heart, shattered nerves, impoverished blood and an exhausted condition of the whole system.

MILBURN'S HEART AND NERVE PILLS

they will find a remedy that will supply food for the exhausted nerves, one that will strengthen and regulate the weak heart and invigorate the whole system.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes:—"I was left with a weak heart and in a run down condition from the 'flu.' My nerves were badly shattered, and I had such pains around my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief, and after taking six boxes I have been well and not bothered since."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Record Wheat Shipment

Over Two Million Bushels Handled On Great Lakes In 1921

Closing of the navigation season on the Great Lakes reveals the fact that for the season of 1921 a total of 108,017,810 bushels of wheat have been shipped since navigation opened; by far the largest quantity ever shipped in the history of upper lake navigation.

On The Marriage Day

Romance usually ceased, and history begins, and sore corns begin to go when "Putnam's" is applied. It takes out corns, roots, branches, stems—no trace of a single corn left after Putnam's Painless Corn Extractor has done its work, 25c at all dealers. Refuse a substitute.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

Dyed A Child's Coat And Her Old Skirt

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Sleeping Sickness Cure
Professor Newstead, of Liverpool University, says German scientists have discovered a new drug which has proved invaluable in the cure of sleeping sickness.

ARE YOU A MOTHER?

Mrs. Dalton tells of a Well-known Doctor's Prescription that is safe for Young Mothers to take as a Tonic and Nerve because it contains no harmful ingredients.

London, Ont.—"Dr. Pierce's Favorite Prescription saved my life years ago and for that reason I am most enthusiastic in my recommendation of it to women who are ailing and weak. I was taken with the measles when in an expectant condition; then blood poisoning set in and my family became greatly alarmed. The doctor advised them to give me Dr. Pierce's Favorite Prescription and I took several bottles of it and was restored to absolutely perfect health. I later took Favorite Prescription as a tonic and nerve and received great benefit from it. As a woman's medicine it is unequalled."—Mrs. Jennie Dalton, 767 York St.

HEALTH BRINGS BEAUTY
Your Health is Vital to You
Barrie, Ont.—"I was suffering from a rundown system some time ago, was unfit to perform my daily duties, and was advised to try Dr. Pierce's Favorite Prescription. I tried it, took two bottles, and was restored to my natural strength. I cannot praise Dr. Pierce's medicine too highly and will be willing to write to any one sending stamped envelope."—Mrs. A. H. Bishop, R. R. No. 1.
You'll soon feel better if you obtain this "Prescription" of Dr. Pierce's at your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg. tablets and write for free medical advice.

Federal Government Will Provide Relief For Unemployed

Ottawa.—Measures for the relief of unemployment and distress throughout Canada, the necessary funds to be provided by governor-general's warrants, have been approved by the Federal Government.

The regulations cover the period to the end of the current fiscal year, March '31, and provide federal assistance to municipalities undertaking civic works during the winter months; to municipalities on account of the unemployment where work cannot be provided, and for the relief of distress in unorganized districts.

A special feature of the regulations is that in the case of unemployment of former members of the Canadian or British forces now in Canada and who were discharged physically fit, the government will reimburse municipal authorities to the extent of one-half the disbursements made for unemployment relief, the provincial and municipal authorities to bear the remaining half.

In the case of public works undertaken by municipalities with a view to the relief of unemployment, the regulations provide that the municipality must bear the normal cost plus one-sixth of the extra cost. The government will pay one-half the extra cost and the province one-third. The federal grant is conditional on the province assuming one-third of such expenditure and the estimate of normal cost must be approved by the federal department of public works.

Where work cannot be provided, conditional upon the participation of the province concerned the Federal Government will refund to a municipality one-third of the disbursements made on account of unemployment relief. Soldiers coming under the special provisions are not to be dealt with in this particular regulation.

In provinces where there are unorganized districts without municipal government in which the unemployment or distress exists and the provincial government finds it necessary to administer a system of unemployment or distress relief, the Federal Government will reimburse the provincial government to the extent of one-half of such disbursements.

Drunkenness in Scotland

London.—Official Scottish judicial statistics show an increase of forty per cent. in persons before the criminal courts during the last year. Convictions for drunkenness number 76,000, this total being an increase of 30,000 over the previous year, but five thousand lower than the figures for 1915 and 26,000 lower than in 1913. The number of juvenile offenders decreased.

HEART WOULD BEAT LIKE A TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it is going to burst.

You have weak and dizzy spells, sinking sensations, are nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath.

We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as will

MILBURN'S

HEART AND NERVE PILLS

Mrs. Chadwick, Delhi, Ont., writes: "I had palpitation of the heart, and the least exercise, such as going upstairs or up a hill, my heart would beat like a trip hammer and at times I was dizzy-headed and had a sinking sensation as if my time were near."

A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first one was used I began to improve. In all I took six boxes, and now although in my 66th year I feel like a young girl; no dizziness or heart-thumping, and can walk miles without fatigue. At time of sickness I weighed 120 lbs. now I weigh 150."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1405

Russia May Side With Germany

Paris.—The French Government, because of information received from Berlin, is much preoccupied by what it considers the possibility of an agreement between the German and Russian Soviet Government with a view to forcing consideration of a revision of the peace treaties at the coming Genoa conference, it was indicated at the foreign office here. That office had been advised that Earl Radek, of the Soviet diplomatic force, was in Berlin, together with several other Soviet representatives engaged in conference with representatives of the German Government.

SUSPEND WORK ON DRYDOCK

CONSTRUCTION COMPANY AT VANCOUVER STATE NO REASON GIVEN

Vancouver, B.C.—In announcing that a formal request had been received from the government to suspend work on the floating drydock here, the Wallace Construction Company stated that no reason was given, but that it was understood the new administration wished to review the form of contract.

The dock was being constructed under the drydock subsidies act. The subsidy was for four and a half per cent. on the cost of the projects, \$2,500,000 for 36 years. The work has not progressed very far beyond the preliminary stages.

According to reports reaching Victoria there will be no cancellation or suspension of work on the Esquimalt drydock pending the taking of office by the minister of public works. Already \$1,500,000 has been expended on the drydock and 200 men are employed.

B.C. Entitled to More Members

Increase in Population Gives Province Two Extra Representatives

Ottawa.—The increase of 130,889 in British Columbia's population as shown in census returns will also mean increased representation from that province in the House of Commons following the next redistribution. At present British Columbia sends 13 members to the House. Its population of 523,369 will entitle it to 15 members, an increase of two over the present representation.

Calgary Wants New Post Office

Ottawa.—The need of a new post office building in Calgary, Alta., was urged upon the minister of public works, Hon. Hewitt Bostock, by R. C. Marshall, Liberal member of the Alberta legislative assembly for Calgary, who was one of a deputation appointed by the mayor of that city to confer with the Federal authorities asking that this work be proceeded with. Consideration of the request was promised by the minister.

Suggests Reducing Armies

Washington.—The Allied nations by revising the treaty of Versailles and reducing their armies, even to a reasonable extent, not only could meet the interest payments of their debts to the United States but pay part of the principal as well, Senator Borah, Republican, Idaho, declared in the Senate. He was discussing the Allied debt refunding bill.

Rifles For Russia

Stockholm.—Swedish newspapers assert that a plot has been revealed to ship into Russia 300,000 army rifles alleged to have been sold to the Soviet authorities through Swedish intermediaries. The rifles are said to have come originally from Germany, but are believed to have been held in storage in Denmark for some time.

WESTERN EDITORS

A. Ford, Publisher of the Observer, Esterhazy, Sask.

Livestock Convention

Successful Meet of Stockman Is Held in Regina

Regina, Sask.—With several hundred delegates of the various breeders' associations in attendance, the Saskatchewan livestock convention held here last week was an unqualified success. There were sessions of the wool growers, sheep breeders and swine breeders associations. The reports of the officers of these various organizations show a considerable improvement in the livestock industry of the province and hold out brighter prospects for the ensuing year.

One of the most interesting features of the session was the boys' and girls' judging contests. About 60 boys and girls from the rural parts of the province assembled in the city to take part in these contests, which were under the direction of H. Saville, boys' and girls' organizer for Saskatchewan. Professor A. M. Shaw, of the University of Saskatchewan, was in charge of the judging.

Unionists Say Anarchy Increasing

Situation Alarming When Crown Forces Leave Ireland

Dublin.—The executive committee of the Irish Unionist Alliance has adopted a resolution, in which it declared:

"Viewing with alarm the increasing anarchy prevailing in Ireland, we are gravely apprehensive that when the crown forces have been withdrawn there will be no reliable protection for life and property."

No Unemployment in France

Montreal.—Zephyr Hebert, president of the local board of trade, addressing the Wholesale Merchandise Brokers' Association here, asserted that there was practically no unemployment in France, a country from which he had just returned. Every one there was working and as a result there was a gradual rehabilitation of the country, despite a burden of taxation that made the Canadian income tax look tiny.

Give your local merchants a chance. Buy at home.

Teacher Says She Found Them Good

Miss Thereault Praises Dodd's Kidney Pills

Popular New Brunswick Lady Furnishes Some of the Reasons Why Dodd's Kidney Pills are Suffering Women's Best Friend.

Upper Pokemouche, N.B.—(Special)—"I can conscientiously recommend Dodd's Kidney Pills to all persons afflicted with any form of kidney trouble."

So says Miss Alice Thereault, the popular school teacher here. And Miss Thereault adds that she knows out of her own experience that Dodd's Kidney Pills are good. "I have experienced great benefit from this medicine since I have been troubled with kidney trouble. I always got good results from using them."

Dodd's Kidney Pills are known from one end of Canada to the other as suffering women's best friend. They are purely and simply a kidney remedy. They strengthen the kidneys to do their full work of straining all the impurities out of the blood. Sound kidneys mean good health.

Ask your neighbors if Dodd's Kidney Pills do not make sound kidneys.

U. S. Wheat Growers Have Plans To Revive Wheat Pool

Fight Clause In Liquor Act

Montreal.—The clause in the Quebec Liquor Act that holds that a man is responsible for the misdemeanors of his wife if she illegally sells liquor, is being attacked by Saluste Lavery, K.C., acting on behalf of James Ingram, a sailor, who is at present serving a month in jail because his wife sold liquor while he was on the high seas. Ingram took out habeas corpus proceedings against the sentence, but these were quashed by Mr. Justice Bruneau in the Superior Court. The case has now been taken to appeal and the Attorney-General has been called in to defend the clause in question.

CONVICTS ATTACK AUSTRALIAN LINER

STEAMER CARRIED GOLD CON-SIGNED TO SAN FRANCISCO BANKS

San Francisco.—A gun fight with naval convicts at Pago Pago, Samoa, was one of the incidents of the voyage of S.S. Sonoma, which arrived here from Sydney, N.S.W., with \$2,000,000 in Australian gold aboard.

Fearing an attack on the ship's specie tanks, the Sonoma's officers opened fire on the naval convicts who attacked the Sonoma's crew when she was in port at Pago Pago. The casualties are not known to the officers who told the story here.

On a previous voyage \$128,000 worth of Australian gold was removed from the Sonoma's specie tanks and later found suspended from the ship's side under water. The gold is consigned by the Australian Commonwealth to San Francisco banks.

To Combat Grasshopper Plague

Manitoba Legislature Will Be Asked For \$50,000

Winnipeg.—For the purpose of combatting the grasshopper plague throughout the province during the coming season the Manitoba Legislature will be asked to pass a vote of \$50,000, J. H. Evans, deputy minister of agriculture, has announced.

During last summer, when an identical amount was set aside for this work, the menace had been controlled with the damage almost negligible, Mr. Evans stated. With the advent of spring, however, there is little doubt but that grasshoppers will appear in old affected areas as well as in new districts.

The Prince At Mysore

London.—The Prince of Wales everywhere in the state of Mysore, Southern India, has received an enthusiastic welcome, even from the Mohammedans, according to information reaching the India Office.

The result of the visit of the Prince is declared to have been particularly gratifying after the non-cooperators' activities of last autumn and the Khalifat activities in Bagaloor during the past two years.

Winnipeg Woman President

Winnipeg.—At the annual meeting of the Canadian National Institute for the Blind, western division, held here, Mrs. W. Sanford Evans, of Winnipeg, was chosen president for the ensuing year.

Probate Sir Arthur's Will

London.—The will of the late Sir Arthur Pearson, founder of the St. Dunstan's Institution for the Blind, has been probated. The estate is valued at \$94,000 and is left entirely to the family.

To Discharge 3,000 From Dockyard

London.—Nearly three thousand men are slated for discharge from Rosyth Royal Dockyard during the next three months. This will result in a saving of one hundred thousand pounds annually.

Washington.—A strong movement for revival of the United States grain corporation to pool the wheat of the country and purchase it as in the war period, is on among United States wheat growers. Not only is sentiment for this reflected in the agricultural conference at present in session, but petitions for legislation are reaching Congress from wheat States.

The demand is that the government buy the wheat crop at a price which will cover cost of production plus reasonable profit. It is probable the plan will be blocked in Congress, though it has powerful support.

Recommendation against any proposition looking toward price fixing on agricultural products was voted by a subcommittee of the committee on marketing of farm products in the agricultural conference. This decision, it was said, was reached only after a strong fight by advocates of the price fixing proposition.

Proposals looking to the development of United States agriculture as a self-sustaining industry were considered by the National Agricultural Conference while its committees continued to work on suggested measures to relieve the present acute situation and provide for general rehabilitation.

Reduction of wages paid railroad labor and of freight rates was recommended by a subcommittee on costs, prices and readjustment. The committee declared that prices paid railroad labor and that of other industries was much greater than returns received by agricultural labor and that a readjustment was necessary.

Frenchman Invents New Gun

Engineer Claims It Has No Recoil When Fired

Brussels.—Le Sol says that experiments will begin at Liege, Feb. 6, with a new gun which, if it fulfills expectations, will have world-wide bearing on ordnance. The invention is that of a French engineer, Delamare Maze, who will direct the tests. There is no recoil when the gun is fired, consequently it is expected to eliminate the brake and skid devices. It will have the same power as other guns its size, with only one-third of their weight.

More Employment in Britain

London.—A quarter of a million fewer people were registered in Great Britain on January 17, as wholly unemployed, than were registered six months ago. The present total is nearly 2,000,000. The number of men employed on government and municipal schemes and emergency work totals 124,000.

SPARKLING EYES

Follow Good Health

London, Ont.—"I have taken Dr. Pierce's Favorite Prescription and it has proved a beneficial tonic. After having typhoid fever I was in a very weakened condition, could not regain my strength, so I decided to take the 'Prescription' and by the time I had taken one bottle I was completely restored to health and strength. Dr. Pierce's Favorite Prescription can be relied upon as a builder and strengthening tonic."—Mrs. John Shuler, 225 Clarence St.

IF YOU'RE A YOUNG WOMAN OR EVEN IN MIDDLE LIFE

Here is Some Good Advice for You From a Prominent Woman

London, Ont.—"When I reached middle age I was in very poor health, was rundown, nervous, would have fainting spells and heat flashes, I was a physical wreck. I tried many different medicines but the only medicine that gave me any relief was Dr. Pierce's Favorite Prescription. Before I had taken a half bottle I was feeling like a different person—the more I took the stronger I got. What 'Favorite Prescription' did for me I am sure it will do for other women at this critical period of life if they will give it a fair trial."—Mrs. M. M. Taylor, 669 Hill St.

Better go now to your neighborhood drug store and obtain Dr. Pierce's Favorite Prescription in tablets or liquid. Write Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for free medical advice, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ont.

Fruit And Vegetables Prepared By A New Method Of Evaporation

The New York Independent recently published an account of what is called a "Pocket Garden" taken to the Arctic seas. "When the MacMillan expedition packed up its goods and chattels a short time ago and departed for Baffin Land and the Frozen North on a voyage of scientific exploration, it carried along the first fresh fruits and vegetables ever to penetrate to that barren country," says The Independent. "Fresh spinach and green corn, new rhubarb in the stalk for rhubarb pies, and raw cabbage for salad were included. Can you imagine the scene? A midsummer dinner in the midst of ice-locked fields and a group of fur-wrapped Esquimaux to wonder and comment on the strange delicacies of the white man's table! Fresh food, months after it has been pulled from the garden and eaten still fresh in a land where no vegetation of any sort is found! How is it accomplished? Every bit of it has been wrapped up simply in paper bags and stowed away with no greater precautions than the blankets or other luggage. Yet sufficient food has been carried along in this form to last each member of the party five months."

According to The Independent, this "Pocket Garden" was made possible by a new process of dehydration, which gets rid of the water in fruits and vegetables without destroying the original flavor, so that by placing them in water for a few hours, they are restored to a condition of freshness. This process is designed not for dehydration on a large scale in factories, but for use on farms and in homes, so that the housewife, whether on the farm or in the town, can quickly and economically preserve fruits and vegetables for winter use.

Dehydrated fruit or evaporated fruit as it used to be called, has not been received very favorably by the public in the past, because processes were imperfect and the resulting products unsatisfactory. Recent discoveries by experts and the latest resulting apparatus have now removed all objections, and demonstrations have been given at which those in attendance were unable to distinguish between dishes prepared from the fresh and from the dehydrated and restored materials.

If a domestic dehydrator capable of dispelling the water from fruits and vegetables without destroying the flavor could be manufactured in Canada and sold at a price to bring it within the reach of every housekeeper, it would considerably reduce the cost of living both by eliminating waste and by reducing the cost of preserving fruits and vegetables in the household. It would save the cost of glass jars and other necessities of old-fashioned canning. Dehydrated fruits can be safely kept in cardboard boxes such as are used for cereal foods or even in ordinary paper bags. However, any housekeeper who has glass jars and wishes to use them for the purpose of storing dehydrated food can put a much greater quantity of food in a jar than was possible when preserving food by old-fashioned canning methods.

According to a table prepared by Prof. Caldwell, Horticultural Investigation Branch, Department of Agriculture, Washington, D.C., hundred pound lots of fresh fruits and vegetables reduce as follows upon dehydration, the differences in weights being due to the varying quantities of water in different kinds of fruits and vegetables:

Product	Pounds
Apples to	12 to 15
Apricots to	16 to 18
Blackberries to	16 to 20
Beans to	11 to 13
Beets to	14 to 17
Cabbage to	8 to 9
Carrots to	10 to 12
Cauliflower to	12 to 14
Celery to	8 to 9
Cherries (sweet) to	22 to 26
Corn (sweet) to	26 to 33
Loganberries to	17 to 22
Onions to	9 to 11
Parsnips to	20 to 22
Peaches to	13 to 16
Pears to	18 to 22
Peas (garden) to	22 to 25
Potatoes (white) to	23 to 25
Pumpkin to	6 to 8
Raspberries to	17 to 23

Spinach to	8 to 10
Squash to	7 to 9
Tomatoes to	6 1/2 to 9
Turnips to	7 to 8

There has never in the past been a system of home drying that would compare favorably in convenience with what is known as "canning" in glass jars, but it is claimed that this difficulty has now been solved, and that food can be dried in the home more conveniently and economically than it can be "canned."

Women prefer their home preserved fruit to factory canned products, not only because they take pride in their own work, but also because they know exactly the condition of the fruits and vegetables at the time they were preserved, and although most of the canning factories exercise great care in the selection of fruits and vegetables, women will always have more confidence in their own selection and examination. A similar preference would no doubt be given to home dehydrated food as compared with the factory product if it could be conveniently dried at home in such a way as to preserve the original flavor, and packed in attractive pasteboard containers properly labelled.

There exists at the present time a good deal of prejudice against dehydrated foods owing to the fact that in past methods of dehydration with hot air, or by long exposure to the sun and air, the outer cells of fruits, vegetables, meats and fish were destroyed and many of the essential oils and flavors escaped before the water was expelled from the inner cells. However, it is claimed that by a process which slightly moistens the dry air with steam, wonderful results have been achieved in the preservation of fruits, vegetables, meats and fish.

Health of Dairy Cattle

Everything Depends Upon Proper Precautions Against Infection

The question has recently been raised as to whether the making of high production records is detrimental to the health of dairy cattle, and whether the risk of disease to pure-breds is sufficient to deter a man who places a high value upon the health of his herd from engaging in the pure-bred business. To the first question the Veterinary Director-General of the Dominion has replied that there is no doubt that intensive feeding to stimulate excessive milk production has a tendency to lower the resistance of the body to attacks of infectious disease, but that if proper precautions are taken against danger of infection, there is no reason why record making should interfere with maintenance of health. Without infection no disease of an infectious nature, such as tuberculosis, is possible. To the second question the Veterinary Director-General gives a decided negative. There is, he says, if a man is willing to take the proper precautions, nothing to prevent him building up a herd of pure-bred dairy cattle as free from disease as any other. He points out that under the accredited herd system now in existence, the opportunities for doing this are a great deal better than they were in former years. Purchases can now be made from accredited herds with every confidence that the animals are absolutely free from tuberculosis.

German Toys Dumped in Britain

Owing to complaints from British manufacturers that German toys are sold in Great Britain below prices at which similar goods can profitably be made in Britain, in consequence of the depreciation of German currency, the British board of trade has appointed a committee to consider the question of imposing on such toys a special duty under the provisions of the safeguarding of industries act.

Blucher Palace Is Bought by American

A Mail and Empire cable from London says American capital to the extent of 44,000,000 marks (about \$250,000) is involved in a real estate transaction just closed in Berlin, by which the historic Blucher Palace in the Pariser Platz, passes into the hands of an American of Lettish descent, named Zmuding, who intends to convert the palace into an office building for an American bank.

Wireless for Police

Chicago Officers Will Carry Small Phone Apparatus

Soon every policeman in Chicago will carry in his pocket a miniature wireless telephone. No matter in what part of the country he is travelling, headquarters can communicate with him instantly. A policeman will be able to receive a message but can't send one. He can hold the instrument in his hand. It has a receiver, which he can place to his ear, and when properly tuned in with headquarters he can hear his message as distinctly as from a call box. The receiving antennae will be in the lining of the policeman's coat. While walking along the street the policeman will suddenly become aware of a little buzzing sound—the signal. He will place the receiver to his ear and get the message.

The Real Want

"Russia wants economic conference"—headline. Also the leg of a chicken, or anything else that will fill. —Ottawa Journal.

Agricultural Education Is Carried To A Point Of Excellence In Canada

The finest proof of the standing of agricultural education in Canada and the excellence of the agricultural colleges of the Dominion was given at the Chicago International Livestock Exposition when the Ontario Agricultural College of Guelph, the Manitoba Agricultural College of Winnipeg, and the Macdonald Agricultural College of Quebec covered themselves with glory in the judging contests, winning the first prize in individual standing as well as other awards.

F. W. Walsh, a member of the quintet representing the province of Ontario, with a score of 891 out of a possible 1,000, secured the premier judging honors. R. E. White, of the same college, finished fifth with a score of 861, and G. E. Rathby, also of Ontario, was fifteenth in the standing, with a mark of 831. In the contest for ag-

gregate college honors, the Ontario team was just nosed out by that from Ohio. A survey of the history of the college, however, reveals the fact that this honor has already on a previous occasion fallen to its representatives.

The great merit of these achievements will be appreciated when it is considered what a small percentage of the total the Canadian student body represented in comparison with the numbers from all the States of the Union. It is concrete proof of the superlative quality of Canadian agricultural education and reflects in the most creditable manner upon the Dominion's first pursuit of farming. This exposition, with its competitions which are comprehensive and exhaustive, is regarded in Canada no less than the United States as the criterion of agricultural efficiency and display, and it may justifiably be assumed from these successes that Canadian agricultural colleges take second place to none.

All this bears on the general fact that the Dominion regards its first industry as its basic of all progress present and future, and in this appreciation spares no effort or expense in its promotion. Not only is the farmer aided and encouraged in every way by the government, Federal and Provincial, but all possible is effected in the line of education to prepare the farm child for his great destiny and in training him to become the most efficient agriculturalist. At the apex of this training comes the agricultural college.

Educational matters being under the jurisdiction of the various provinces, agricultural scholarship comes under this head and the agricultural colleges are instituted and partially supported by the provincial governments. The Agricultural Instruction Act, of 1913, provided for the payment to the provinces of the sum of ten million dollars in a period of ten years for the purpose of aiding and advancing the farming industry of Canada. It was intended to supplement provincial appropriations and with a view to enabling the provinces to finance and carry out instructional efforts in the interest of agriculture in a more extended and comprehensive manner than would otherwise be possible—to promote better farming methods and encourage agricultural education.

Agricultural colleges are to be found all over the Dominion, serving the peculiar needs of the farmers of every section. Alberta possesses the Alberta Agricultural College as part of the provincial university at Edmonton as well as six agricultural schools in various parts of the province. British Columbia has an agricultural faculty at its university, as has Saskatchewan. Manitoba Agricultural College at Winnipeg has created an enviable reputation for itself and is open to any student irrespective of previous education. New Brunswick has two agricultural colleges and Nova Scotia one establishment. Ontario has the Agricultural College at Guelph with more than a thousand students and two other establishments. Macdonald College, near Montreal, with nearly eight hundred students, is supplemented in Quebec with colleges at Ste. Anne de la Pocatiere and La Trappe, Oka, both affiliated with Laval University.

Agricultural colleges in Canada have been so instituted and arranged that the best possible agricultural education is within reach of any boy or girl or youth aspiring to the pursuit of scientific farming. To meet the needs of the people of the farm who find it impossible to get away to take the longer courses, short, intensive instructional courses are given in the winter months.

Then in the fear that even so some may not be reached, the college goes to the farmer, and by means of specially equipped trains travelling through the country takes a demonstration and instructional course to the farmer's door.

Movable Schools

Thirteen movable schools form part of the equipment for agricultural extension work in Bulgaria. Each school has a trained staff, and the courses cover anywhere from a week to a month. The total attendance last year was 23,000.

A Famous Sea Captain Late Commander of the "Empress of France."

The Canadian Pacific recently lost by death in England one of their popular sea captains when Captain Ebenezer Cook, R.N.R., late of the Canadian Pacific liner "Empress of France," passed away at his residence at Great Crosby.

After conveying Mr. A. J. Balfour and other prominent Peace Conference delegates across the Atlantic, Captain Cook was taken ill on arrival at Quebec. He was lying ill on the steamer on her return voyage, and when the steamer reached Liverpool he was removed by ambulance to his home, but too late to recover.

The late Captain Cook, who was 53 years of age, was a man of fine appearance, and possessed a most courteous and genial disposition. He was looked upon as one of the most capable commanders sailing from the Mersey, and he performed excellent service during the war years.

Captain Cook was born at Tyn-y-porth, and joined the Allan Line in 1893 as fourth officer of the "Carthage." Within four years he was promoted to chief officer of the "Tunisian," and he became the Commander of the "Oradian" in 1907. On the commencement of the war the Admiralty placed him in command of the "Victorian," and later he was given

Late Captain Cook.

and the Rt. Hon. Mr. A. J. Balfour.

The high esteem in which the late Commander Ebenezer Cook was held manifested itself at the funeral which was attended by a large throng of mourners, colleagues and friends. The funeral service was offered at St. Luke's Presbyterian Church, Great Crosby, the service being conducted by the Rev. J. Vaughan, M.A., Vicar of Great Crosby. Captain Cook was a prominent member of the Masonic Brotherhood, being attached to Crosby Lodge 3714. At the funeral the Canadian Pacific Steamships Limited were represented by J. A. Martin, London Manager, who also represented Sir Thomas Fisher general manager; Capt. J. V. Foster, Liver-

"Empress of France" arriving at Quebec, on which Captain Cook made his last trip to Canada.

pool Steamships manager; W. J. Sargent, consulting engineer; Capt. Maxwell, marine surveyor; D. Hallan, chief catering superintendent; W. Davies, dock superintendent; Capt. A. H. Sargent, R.N.R.; A. C. Wilson, shipping master; T. McNiel, Liverpool general agent, C.P.R., who represented Sir George McLaren Brown, European general manager; R. A. Swain, passenger agent, C.P.R. A large number of the officers and staff of the "Empress of France" and "Empress of Britain" were present.

Many beautiful floral tributes were laid on the grave.

en the command of the "Alsation," at that time flagship to the 10th Cruiser Squadron of the North Atlantic. Following the Armistice, the Canadian Pacific Company retained him as commander of the "Alsation," which liner, following her conversion from war service, was renamed the "Empress of France." Captain Cook has since sailed regularly on this liner, and he was very highly esteemed by ocean travellers, including such distinguished passengers on the "Empress of France" as the Duke and Duchess of Devonshire, Lord Byng (Governor-General of Canada),

World Happenings Briefly Told

Thirty persons were baptized by immersion in the river at Llanley, Wales. The ice had to be broken for the ceremony.

The former Austrian archduke and admiral, known as Leopold Woelfing, has accepted a position as advertising agent for a Vienna newspaper.

Fire losses in Canada during the week ended Dec. 21, are estimated by the Monetary Times at \$798,400, compared with \$457,500 the previous week.

The second chamber of the Dutch Parliament passed by fifty-seven to eighteen, the bill authorizing a loan in the United States for the Dutch East Indies.

Three hundred and fifty tenants of a downtown arcade building in Cleveland received Christmas presents in the form of rent reduction of ten to fifteen per cent.

With only his face showing above the water, Joseph Norwalk, wanted for grand larceny, was found by officers in an abandoned well under the kitchen of his home in Toledo, O.

With December's collections estimated at \$1,000,000, the total collections at the port of Vancouver for 1921 are \$12,662,772, according to figures given out by the customs department there. This represents an increase of more than two millions over 1920, and more than four millions over 1919.

Civilization Bad For Eskimo

Traveller Predicts that Eskimo Tribes Will Soon Be Extinct

Members of the Eskimo tribes, who total upwards of 5,000 persons, will be extinct during the lifetime of people now living, according to a prophecy made in Toronto by S. Salisbury, who spent ten years in the Arctic regions of Baffin's Land and Hudson's Bay. He declared the effect of civilization on the Eskimo was appalling, their health and stamina breaking down completely. The chief cause of their physical deterioration is the introduction of civilized foods, white flour being particularly disastrous in its effects.

Valuable Clay In Alberta

Suitable for Manufacturing Brick and Tile Drain

The story of a pronounced disability disclosing itself as a valuable asset comes from the Smoky River country along the line of the Edmonton, Dunvegan and British Columbia railway. Engineers of the road had ceaseless trouble in maintaining the approach to the crossing of the river owing to the continual sliding of the clays of which the banks are composed. Now it appears after examination that these clays, of which there is an enormous quantity, are valuable for the manufacture of brick and tile drain, and may in time give birth to an industry, the traffic of which should compensate the railroad for some of the trouble it has experienced.

MANY CHILDREN SICK HOW TO TREAT THEM

The kiddies will get their feet wet, catch cold, get croup and give their mothers lots of trouble. With the first cough or sneeze, rub the little one's chest with Nerviline, rub it on plentifully, it can't harm. Then make a gargle with Nerviline and water, and have the child gargle for five minutes. Just at bed time, give the child ten drops of Nerviline in hot sweetened water. The result is fine, and next morning child is better. Nerviline is a great protection in the home. Large 85c bottles at all dealers.

Rebuilding Copper Concentrator Will Cost Britannia Mines \$500,000 for Reconstruction

Tenders have been closed for the rebuilding of the concentrator at the Britannia Copper Mines, Britannia Beach, British Columbia. It is understood that the cost of construction will be over \$500,000. The Britannia Copper Mines are the second largest copper mines in the British Empire.

THAT DRY COUGH IS BRONCHITIS

If neglected, it will weaken the throat and perhaps reach the lungs. Nothing surer to help you quickly than the healing soothing vapor of Catarrhzone. Its action is magical, every congested spot is healed, irritation is soothed away, phlegm and secretion are cleaned out, all symptoms of weak throat, Catarrh, Bronchitis disappears. Catarrhzone is a genuine, scientific preparation. Sold everywhere in three sizes, 25c, 50c and one dollar for a complete two months' treatment. Prepared by the Catarrhzone Co., Montreal.

His Sad Fate
Traveller (at remote station).—
Have you a 'Sporting Life'?
Bookstall Clerk.—No—not very.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or gripe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Aeroplane Stunts Are Barred

A New Clause Is Added to the Air Regulations

Acrobatic tricks, involving entering or leaving an aeroplane while in flight, are barred out under a new clause which has been added to the air regulations. The clause reads as follows: "No person shall enter or attempt to enter any aircraft in flight; or leave or attempt to leave any aircraft in flight, except for the purpose of making a parachute descent; or give upon any aircraft in flight any gymnastic or other like exhibition."

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Circulars free. All Druggists.
F. J. Cheney & Co., Toledo, Ohio.

Hours For Female Workers

Manitoba Issues Regulations For Forty-Eight Hour Week

The minimum wage board of the province of Manitoba has issued regulations requiring that female workers in industries in the province shall not work for more than nine hours per day, or 48 hours per week. All night work or Sunday work is prohibited absolutely, while overtime can be worked only on permit from the Provincial Bureau of Labor, and not oftener than 30 days in any year.

Solid Achievement

The Washington conference for the limitation of armaments has arranged a Pacific league of nations to prevent and settle disputes, has arranged the trouble over the island of Yap between Japan and the United States, has freed China from foreign control of postal services and has started other causes of possible dispute towards adjustment. The members of the gathering appear to have had their hearts in the job their countries gave them to do.—The Montreal Gazette.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a reliable remedial agent. It immediately relieves the restricted air passages as many can testify. It is sold by dealers everywhere.

Motor Cars In Prairie Provinces

Of a total of 400,000 motor cars in commission in Canada, 156,654 are located in the Western Provinces. In Manitoba there are 34,814; in Saskatchewan, 58,825; in Alberta, 36,515; and in British Columbia, 26,500.

Minard's Liniment For Diphtheria

Wrap of Black Duvetyn And Hudson Seal

By Marie Belmont

A coat which can adapt itself to varied occasions is a very desirable one to possess. This versatility of use finds expression here in black duvetyn trimmed in Hudson seal.

The wrap is built on loose lines, this effect being carried out in the single button fastening and the dropped shoulder seams. The chin collar is becoming and gives additional warmth. The finishing band of fur at the hemline is attractive for a person of sufficient height, but should be avoided by one of very short stature.

This coat is attractive over afternoon frocks of black or color, and can also be used for evening wear.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Your attention is drawn to the advertisement of the Metal Shingle & Siding Co., Ltd., appearing in another column of this issue. Farmers and others will do well to take advantage of their exceptional offer.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

There are 5,000 living animals of 1,000 species located in the New York Zoological Garden and more are added yearly.

Minard's Liniment For Garget in Cows

New York has theatres playing in six different tongues, and newspapers printed in 20 foreign languages.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right out with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Cuticura Is Just Right For Baby's Tender Skin

Bathe him with Cuticura Soap and warm water. Dry gently and if any sign of redness, roughness, irritation or rash is present, anoint with Cuticura Ointment to soften, soothe and heal. Finally dust on a few grains of the fragrant, delicately medicated Cuticura Talcum.

Soap 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Cuticura, Limited, 344 St. Paul St., W., Montreal.

25c Cuticura Soap shares without soap.

The Priceless Image

A short-sighted old lady went into a large curio shop. After pottering about for some time she asked the assistant: "How much is that Japanese idol worth—the one near the door?"

"It is worth a great deal," replied the assistant. "It's the proprietor."

BEAUTY OF THE SKIN

is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. All dealers, or Edmanston, Hales & Co., Limited, Toronto. Sample free if you mention this paper.

THIN, FLAT HAIR

GROWS LONG, THICK AND ABUNDANT

"Danderine" costs only 35 cents a bottle. One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair.

It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.

W. N. U. 1401

Will your "Good Morning" last all day?

Easy to start from the breakfast table with zest and enthusiasm, but how easy is it to keep on? Does ambition last, or lag, as the day develops?

The afternoon "slump" is a factor to be counted upon, in business or social life.

Usually, there's a reason.

Nerves whipped by tea or coffee won't keep on running, and they won't stand constant whipping.

Many a man or woman who has wished the afternoon would be as bright as the morning has simply been wishing that the nerves wouldn't have to pay the natural penalty for being whipped with the caffeine drug.

Postum gives a breakfast cup of comfort and cheer, without any penalties afterward. There's no "letting down" from Postum—no midday drowsiness to make up for midnight wakefulness; no headaches; no nervous indigestion; no increase of blood pressure.

Think it over. There's full satisfaction in Postum—a cup of comfort for anybody (the children included), any time.

You can get Postum from your grocer or your waiter today, and probably you'll begin to have better tomorrows, as so many thousands have had, who have made the change from tea and coffee to Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

Black horse branded left shoulder wt. 950 lbs. Age 4 yrs.
One brown mare wt. 700lbs. No Brand. Age 3 yrs.

We are suppressing the name of the contributor of the following as he is afraid he might get his head smashed for his punk verse.

On Sunday last our Juniors strayed,

Out Garret way, and a game they played.

A darn good game it was by Heaven,

For they chalked up a tally of exactly eleven.

By their brilliant play they did contrive

To hold down Garret to a score of five.

The game was close until the fifth inning.

After that our Juniors were sure of winning.

For, in the fifth they had sure great picking.

And Garret? Oh, they were sure of a licking.

Below is given our team by name.

They will live forever in the Hall of Fame.

Kenneth Hart	c
Harold Kettleston	p
Clayton Hay	1 b
Jack Tessier	2 b
Clarence Hay	s s
Stewart Hay	3 b
Mickey Skerry	1 f
James Smith	c f
Joe Robinson	r f

Huxley-Grainger District U. F. A. have been holding a series of picnics in the country locals. The first was held at Lunni, July 4th. Mr. Smith M. L. A. of Olds addressed the gathering and then they were entertained by real baseball and football games.

Loyalty on July 26th had H. W. Wood as the attraction, who discussed the "Wheat Beard"

Mt. Vernon on Aug. 8th besides an A 1 game of baseball resulting in a tie and local sports, had E. J. Garland as their speaker. He commenced by paying a tribute to our only woman M. P. Miss McPhail, a rural school teacher, and commented on the betty abuse and slander to which she was subjected. Then he described something of the peculiar methods by which bills are put through or Killed as the parties dictate. He described the helpful legislation the progress

ives had been fortunate to get He spoke of the bitterness the Maritime Provinces showed and explained the reason, being that they had been shut out of their natural markets by the bargain to Confederation. The same bitterness is developing rapidly in the West. A resolution had been brought in to the meeting asking that exemption from tax sales be extended till 1923. Letters were read from the Deputy Minister and A. B. Claypool in regard to the matter. We understand that in the future the matter will largely rest in the hands of the Municipal Councils.

Mrs. Spry and Mrs. Hicks, two of our sweet singers delighted the audience. Sunny Ridge nine miles west of Three Hills holds the last of the picnics on August 16th.

L. B. HART,
Carbon

See Ethel Clayton in "The Price Of Possession" at the Farmers Exchange Hall Sat. Aug 19th.

All her life she had nothing. Now her chance had come, and she had fought to make her family motto come true. Fought like a tigress for home and happiness. And after a struggle that goes to your heart, she won.
